

Hello everyone,

Today I will show you how to create your first business email account. it's so **simple**.

! A common issue for most new users is setting the 'sending rate limit' in the email account. Please note that you can't set an 'unlimited send limit'. You can configure it to send up to 7200 per day, which is 300 per hour.

1. First log into [MailWish Dashboard](#).
2. Visit '**My Email Hosting**':

Please check your email and follow the link to verify your email address.

3. Select **'Domains'** and then choose **'Add Domain'** to incorporate your business domain, for this example we use 'frontflare.com,'

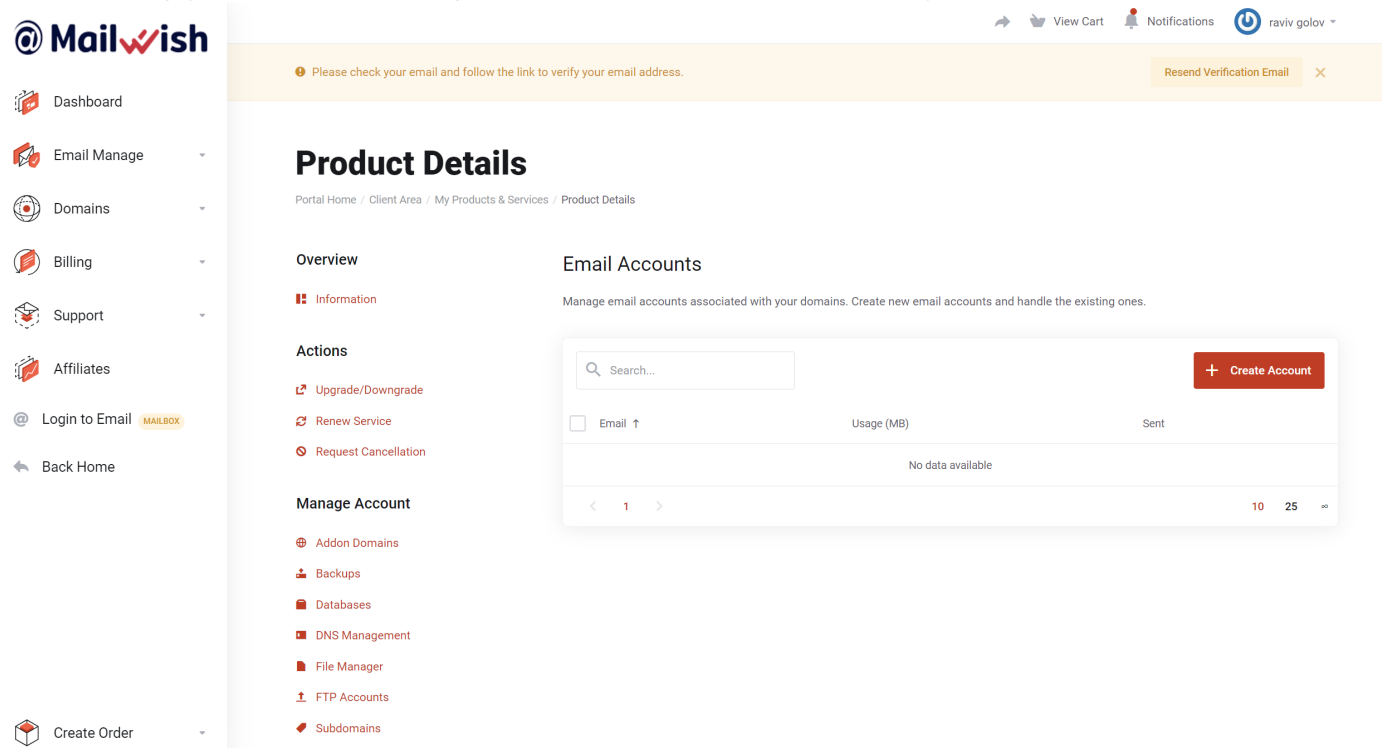

Getting Started: Creating My First Business Email

which you can later use for your Business Email.

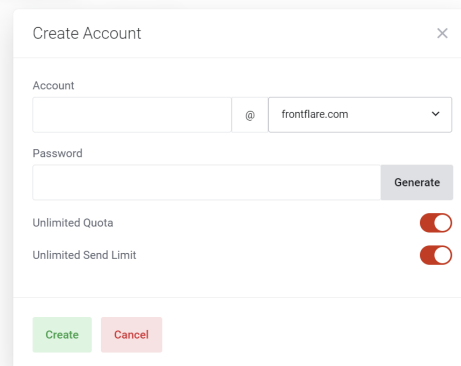

[illegible]

4. After adding your domain, navigate to **'Email Accounts'**, here you can create *Unlimited Email accounts*

The screenshot displays the Mailwish dashboard interface. On the left is a sidebar with navigation links: Dashboard, Email Manage, Domains, Billing, Support, Affiliates, Login to Email (with a MAILBOX badge), and Back Home. At the bottom of the sidebar is a 'Create Order' button. The main content area is titled 'Product Details' and shows the 'Email Accounts' section. A yellow banner at the top of the main area prompts the user to check their email for verification. The 'Email Accounts' section includes a search bar, a '+ Create Account' button, and a table with columns for 'Email', 'Usage (MB)', and 'Sent'. The table currently shows 'No data available'. Below the table is a pagination bar with a page number '1' and a range of '10 25'. A 'Manage Account' section on the left lists various services like Addon Domains, Backups, Databases, DNS Management, File Manager, FTP Accounts, and Subdomains. The top right of the dashboard shows user profile information for 'raviv golov' and links for 'View Cart', 'Notifications', and 'Resend Verification Email'.

5. Done! Click **'Create Account'** and choose your business email domain! **Please note you can't set an Unlimited Send Limit, you can set it up to '7200' which is 300/day!**

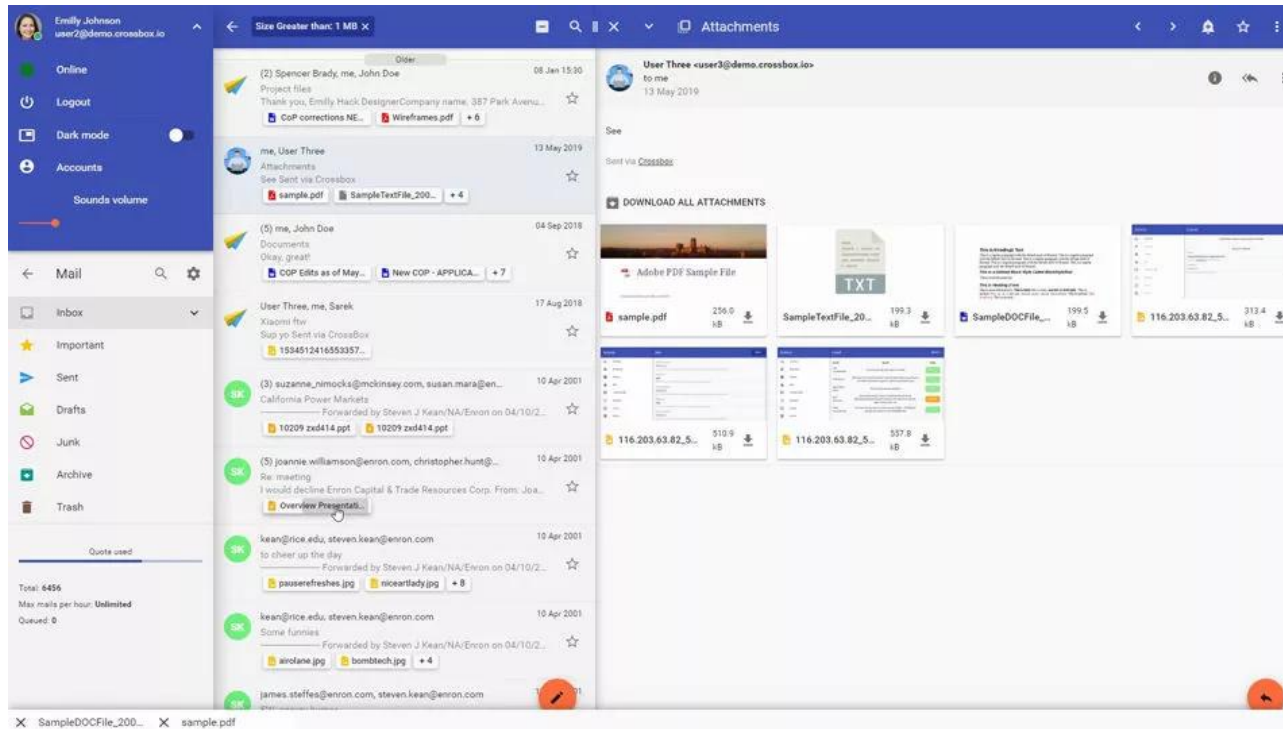

The image shows a 'Create Account' dialog box with the following fields and options:

- Account:** A text input field followed by an '@' symbol and a dropdown menu showing 'frontflare.com'.
- Password:** A text input field with a 'Generate' button to its right.
- Unlimited Quota:** A toggle switch that is currently turned on (red).
- Unlimited Send Limit:** A toggle switch that is currently turned on (red).
- Buttons:** 'Create' (green) and 'Cancel' (red) buttons at the bottom.
