

Acquiring the EPP/Auth code from GoDaddy

If your domain name is registered at [GoDaddy](#) and you want to [transfer it to CloudWish](#), you can obtain the [EPP code](#) by **contacting them** or by **following these steps**:

1. **Log in** to your **GoDaddy account**
2. Select the domain you want to transfer to reach the **Domain Settings** page
3. Once you are there, select the **Transfer domain away from GoDaddy** option located in the **Additional Settings** section
4. Select **Click here to see the Authorization Code**

After completing the steps above, you'll find the **EPP code** and be able to copy it. Additionally, you'll receive an email with the same

information.

While you're in the **Domain Settings** section, **disable domain privacy protection** (if enabled), too.

Now, your domain is ready for transfer ☐

NOTE

If your domain name has special transfer requirements, or if you have any further questions, refer to this article: [Get the auth code for my domain | Domains - GoDaddy Help](#)
