Hello

This straightforward guide will walk you through the process of rebranding **mailbux.com** to align with your own brand identity, including customization of the logo, name, and domain. This transformation will instill a sense of ownership and authenticity, making it truly reflective of your business.

You can change mailbux.com:
– Change name
– Change domain
– Add your links
– Add your logo
And much more

Here are the simple steps:

1) Create a business email account starting with admin@yourdomain.com
2) log in to the business account via **mailbux.com**
3) A new menu item called "Admin" will appear
